

Hot Press for Logo Transfer, 120V AC, 300W, 15×20 cm Heat Plate

- Operates on 120V AC power supply
- Delivers 300W of heating output for logo transfer
- 15×20 cm heat plate provides workspace for logo application
- Backed by a 1-year manufacturer warranty
- Compact design suited for production workspace integration

OVERVIEW

The EQ-HP6 is a hot press unit designed for logo transfer applications, suitable for imprinting onto a range of materials in commercial and light industrial settings. Its compact form factor makes it practical for use in production workspaces where consistent, repeatable logo application is required.

The unit operates on 120V AC and delivers 300W of heating power across a 15×20 cm heat plate. Fast heat-up and even heat distribution across the plate support consistent transfer results. Protective features are incorporated to support safe operation during extended use.

The unit carries a 1-year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime	50,000 h
--------------	----------
