

Manual Grommet Punch Machine without Die Set, Hand - Operated, GREEN Basic Punch

- Sold without die set for custom grommet size selection
- Manual hand-operated punching mechanism for direct control
- Compatible with fabric, leather, vinyl, and similar materials
- Compact, ergonomic design suited for portable job-site use
- Backed by a 1-year warranty

OVERVIEW

The Manual Grommet Punch Machine (EQ-PUNCH) is a hand-operated tool designed for efficient grommet installation across a range of commercial and industrial applications, including advertising, manufacturing, and fabrication. It is compatible with fabric, leather, vinyl, and similar sheet materials, accommodating various grommet sizes.

The machine is sold without a die set, allowing the operator to select dies appropriate for the specific grommet size and material required. Its manual operation provides direct control over the punching process, and the compact, ergonomic design supports portable use across job sites or production environments.

The unit carries a 1-year warranty.
