

Aluminum Ruler, 2 - 3/8 in. Wide x 126 in. Long, Etched Inch/Centimeter Markings

- Aluminum construction for lightweight, durable handling
- Measures 2 - 3/8 in. wide x 1 in. high x 126 in. long
- Etched markings in inches and centimeters for unit conversion
- Sleek silver finish for a professional appearance
- Etched graduations resist wear for long-term legibility

OVERVIEW

The EQ-RULER126 is a 126-inch aluminum ruler designed for precision measurement in carpentry, drafting, crafting, and other trade applications requiring extended-length layout work. Its sturdy aluminum construction keeps the tool lightweight and manageable across its full length.

The ruler measures 2 - 3/8 inches wide by 1 inch in height and features etched markings in both inches and centimeters, supporting straightforward unit conversions. The sleek silver finish provides a professional appearance while the etched graduations resist wear for sustained legibility in active work environments.
