

Aluminum Ruler, 30 in. Length, 2 3/8 in. Width

- Aluminum construction for durability and lightweight handling
- 30-inch overall length for measuring larger workpieces
- 2 3/8-inch width provides ample surface for clear markings
- Overall dimensions of 30 × 3 × 2 inches
- Weighs 2 pounds for easy carrying and storage
- Backed by a 1-year warranty

OVERVIEW

The EQ-RULER30 is a 30-inch aluminum ruler designed for accurate linear measurement in professional and technical applications, including drafting, woodworking, engineering, and general fabrication work. Its 2 3/8-inch width provides adequate surface area for clear inch markings, supporting precise measurement placement and reducing read errors.

Constructed from aluminum, the ruler offers durability with a lightweight profile suited for jobsite use, desk work, or transport. Clearly labeled inch graduations run the full 30-inch length, making it practical for measuring larger workpieces where shorter rules fall short. The unit weighs 2 pounds and measures 30 × 3 × 2 inches overall.

The product is backed by a 1-year warranty.
