

Solid Brass MR16/G4 Landscape Flood Light, IP65, 12V Low Voltage, Antique Bronze

OVERVIEW

The F-BR-MR16-12V is a solid brass landscape flood light designed for low-voltage outdoor lighting applications. Accepting G4 or MR16 lamps (sold separately), it is suited for accent, path, and architectural lighting in residential and commercial landscape installations. Available in Antique Bronze, Gun Metal Black, and Matte Black finishes.

The fixture operates on 9–17V AC/DC input and supports lamps up to 50W, requiring a low-voltage transformer (sold separately). The housing is constructed from solid brass with a clear flat glass lens. Lead wire is a pre-stripped 72-inch SPT-1W 18-gauge conductor. Dimensions are 5.2"L x 3.6"W x 6.1"H.

The fixture carries an IP65 wet-location rating. Warranty coverage is 10 years on surface finish and lifetime on structure.

SPECIFICATIONS

IP rating	IP65	Dimensions	5.2 x 3.6 x 6.1 in
Input voltage	9–17V AC/DC V AC/DC	Warranty	10 years
