

RF RGB Controller for F-40RGB-ETL LED Flood Light

- RF wireless control of connected F-40RGB-ETL flood light
- Backed by a 1 year warranty
- Compatible with LED lifetime rating of 50,000 hours
- Battery - operated remote, batteries not included

OVERVIEW

The F- RGB- ETL- CTL is an RF- based RGB controller designed for use with the F- 40RGB- ETL LED flood light. It provides wireless remote control of color output for compatible RGB flood lighting installations, making it suitable for architectural accent lighting, facade illumination, and other applications where dynamic color control is required. Batteries are not included with the controller.
