# American Coastal Collection Square Stair Nose, 3.5 in Wide, 7 ft Length

- Square-profile design for stair tread edge transitions
- 3.5 in width fits standard stair tread applications
- 7 ft length suited for continuous stair runs
- Part of the American Coastal Collection product line

## OVERVIEW

The American Coastal Collection Square Stair Nose is a stair-edge transition molding designed to provide a finished, protective profile at the leading edge of stair treads. It is used where a clean square-profile transition is needed between flooring surfaces and stair steps.

The molding measures 3.5 inches wide and 7 feet in length, sized for standard residential and commercial stair tread widths.
