

Quarter Round Flooring Trim, English Forest Collection, 0.75 in. Width, 7 ft. Length

- Quarter round profile with 0.75 in. width
- Supplied in 7 ft. lengths per piece
- Part of the English Forest flooring accessory line
- Round cross-section suited to baseboard transitions

OVERVIEW

The FL-EF-Q-Round is a quarter round molding profile from the English Forest Collection, used to trim and finish flooring installations where a wall meets the floor surface. It measures 0.75 in. in width and is supplied in 7 ft. lengths.

This profile provides a consistent round cross-section suited to concealing expansion gaps and transitions along baseboards in residential and light commercial flooring applications.
