

## Innova LVT Collection Reducer — 2 in. Wide, 7 ft. Length

- Reducer profile transitions LVT flooring to a lower adjacent surface
- 2 in. width suits standard doorway and threshold applications
- 7 ft. length covers most room-perimeter transition runs
- Part of the Innova LVT Collection accessory line

### OVERVIEW

The Innova LVT Collection Reducer is a flooring transition strip designed to create a smooth, finished edge between LVT flooring and an adjacent surface at a lower height. At 2 in. wide and 7 ft. in length, it provides sufficient coverage for standard doorway and room-perimeter transitions in commercial and residential installations.

### SPECIFICATIONS
