

SPC Quarter Round Molding, 7 ft.
Length, 0.75 in. Width

- Constructed from stone plastic composite (SPC) core material
- Supplied in 7 ft. lengths for continuous run coverage
- 0.75 in. width sized for standard quarter round applications
- Quarter round profile suited to flooring edge and corner transitions

OVERVIEW

The Innova SPC Collection Quarter Round Molding is a trim profile measuring 7 ft. in length with a 0.75 in. width, used to finish edges and transitions where flooring meets walls or adjoining surfaces. It is manufactured from stone plastic composite (SPC) material, providing a rigid, dimensionally stable trim piece for commercial and industrial flooring installations.
