

SPC Collection T-Molding Transition Strip, 2 in. Wide x 7 ft. Length

- 2 in. wide profile for standard transition gap coverage
- 7 ft. length per piece for continuous doorway or room runs
- T-shaped molding profile bridges two equal-height flooring surfaces
- Part of the Innova SPC Collection of flooring transition trims

OVERVIEW

The Innova SPC Collection T-Molding is a transition strip designed to provide a clean, finished edge between two hard surface flooring installations. At 2 in. wide and 7 ft. in length, it is suited for covering expansion gaps at doorways, room transitions, and other flooring joints where two surfaces meet at the same height.

SPECIFICATIONS

MECHANICAL

Length	2.13 m 7.0 ft
