OVERVIEW

The Innova SPC Herringbone Collection – Sandpoint is a rigid-core vinyl plank flooring product built on a Wood Polymer Composite (WPC) core, designed for interior applications where dimensional stability and pattern detail are priorities. The herringbone format provides a traditional layout option suited to high-traffic floor installations.

Each plank measures 0.41 × 2.46 ft with a 5.5mm overall thickness and a 20mil (0.5mm) wear layer, covering 22.2 sqft per box at 40 lb per box. The product carries an IP20 rating and is classified as non-waterproof, indicating suitability for dry interior environments rather than wet-area installation.
