

Innova WPC Collection End Cap, 2 in. Wide, 7 ft. Length

- Designed for Innova WPC Collection linear profiles
- 2 in. wide profile matches WPC channel width
- 7 ft. length for extended channel runs
- Provides finished termination at channel ends

OVERVIEW

The Innova WPC Collection End Cap is a finishing component designed for use with Innova WPC Collection linear profiles. It provides a clean termination for WPC channel runs in commercial and architectural installations.

Measuring 2 in. wide and 7 ft. in length, it matches the dimensional profile of the Innova WPC Collection channel system for consistent fit and appearance.

SPECIFICATIONS

MECHANICAL
