

Opus American Walnut Collection Reducer, 2 in. Wide x 7 ft.

- American Walnut finish for coordinated flooring transitions
- 2 in. width suits standard reducer applications
- 7 ft. length covers typical doorway and room-transition spans

OVERVIEW

The Opus American Walnut Collection Reducer is a transition molding strip designed to bridge flooring height differences between adjoining floor surfaces. At 2 in. wide and 7 ft. in length, it provides a finished edge where floors of differing heights meet, such as at doorways or room transitions.
