

Opus European Oak Collection Reducer, 2 in. Wide x 7 ft. Length

- Reducer molding profile for transitioning between uneven floor heights
- 2 in. width for standard transition coverage
- 7 ft. length per piece for extended run coverage
- Part of the Opus European Oak Collection

OVERVIEW

The Opus European Oak Collection Reducer is a transition molding designed to bridge the height difference between two floor surfaces of varying thickness. At 2 in. wide and 7 ft. in length, it provides a finished, continuous look at doorways and room transitions where flooring materials meet at uneven elevations.

SPECIFICATIONS

MECHANICAL

Length	7 m 23.0 ft
Strip Width	2 mm 0.08 in
