

Opus Herringbone Collection Reducer, 2 in. Wide x 7 ft. Length

- Reducer molding for the Opus Herringbone Collection
- Width measures 2 in. for standard transition coverage
- Length of 7 ft. spans typical doorway and room-transition widths
- Provides a finished edge between flooring surfaces of differing heights

OVERVIEW

The Opus Herringbone Collection Reducer is a transition molding designed to provide a finished edge between flooring surfaces of differing heights or materials. At 2 in. wide and 7 ft. in length, it is suited for doorways, room transitions, and other areas where a clean, professional seam is required.
