

Mini Fuse, 10 Amp Blade-Style, Discontinued Item

- Rated at 10 amps for overcurrent protection
- Mini blade-style compact form factor
- Compatible with a wide range of standard mini fuse holders
- Suited for tight, space-constrained fuse block installations
- Backed by a 1 year warranty

OVERVIEW

The Mini Fuse 10 Amp is a mini blade-style fuse rated at 10 amps, intended for automotive, industrial, and electronic applications where overcurrent protection is required in space-constrained installations. The compact form factor suits tight fuse block layouts and is compatible with a wide range of standard mini fuse holders.

The fuse is described as offering enhanced durability and reliable performance in critical circuit protection applications, with a 1 year warranty.

This item is listed as discontinued. Verify replacement options or equivalent specifications before specifying for new installations.

SPECIFICATIONS

OPTICAL

LED Lifetime 50,000 h

ORDERING

Warranty 1 y

APPLICATIONS

- Automotive fuse blocks
- Industrial control panels
- Electronic equipment circuit protection
- Space-constrained wiring enclosures
