

Mini Blade Fuse, 15 Amp Rating, Compact Automotive and Electronic Use

- Rated for 15 amps maximum current draw
- Compact blade form factor for tight installation spaces
- Amp rating clearly labeled for quick identification
- Backed by a 1-year warranty
- Rated for 50,000 hours of service life

OVERVIEW

The FUSE-M-15A is a mini blade fuse rated at 15 amps, designed for use in automotive and electronic applications where space is limited. It provides protection against short circuits and overloads in a compact form factor suited for tight installation environments.

The fuse carries a 15-amp maximum current rating and is compatible with a broad range of vehicles and devices. Its construction supports straightforward installation and replacement, and amp rating labeling allows for quick visual identification during service. It carries a 1-year warranty.
