

## Mini Fuse, 2 Amp — Replacement Fuse for LED Lighting Systems

- Rated for 2 amps of continuous current
- Mini blade-style form factor for compact fuse holders
- Interrupts circuit on overcurrent to protect connected devices
- Suited for automotive, industrial, and electronics applications
- Backed by a 1-year manufacturer warranty

### OVERVIEW

The FUSE-M-2A is a mini blade-style fuse rated at 2 amps, designed to protect circuits from overcurrent conditions in automotive, industrial, and electronics applications. Its compact form factor allows installation in space-constrained fuse holders and panels without compromising circuit protection performance.

When current exceeds the 2-amp rating, the fuse interrupts the circuit to prevent damage to connected devices and wiring. The design is suited for moderate-current applications where reliable, repeatable protection is required.

The fuse carries a 1-year warranty for defects in materials and workmanship.

### SPECIFICATIONS

#### OPTICAL

LED Lifetime 50,000 h

#### ELECTRICAL

Wattage \* 2 W

#### ORDERING

Warranty 1 y

### APPLICATIONS

- Automotive electrical panels
- Industrial control cabinets
- LED lighting circuit protection
- Low-voltage electronics assemblies
