

Mini Blade Fuse 5 Amp — Replacement Fuse for LED Lighting Systems

- Rated at 5 amps for low - amperage circuit protection
- Compact mini blade form factor fits tight installation spaces
- Rated service life of 50,000 hours
- Backed by a 1 - year manufacturer warranty
- Interrupts circuit quickly on overload or short circuit

OVERVIEW

The FUSE-M-5A is a mini blade fuse rated at 5 amps, designed for use in automotive and electronic applications. Its compact form factor allows installation in tight spaces, making it suitable as a replacement fuse in LED lighting control circuits, vehicle wiring harnesses, and low - voltage electronic systems.

Constructed for reliable overcurrent protection, this fuse is designed to interrupt the circuit quickly in the event of excessive current flow, helping to protect connected equipment from overload or short - circuit damage. It carries a rated service life of 50,000 hours and is backed by a 1 - year warranty.
