

## 65cm 3D Hologram Fan, 60W, 2500 nit, WiFi & App Control, 3840x960 Resolution

### OVERVIEW

The HD-F65-WF is a 65 cm diameter 3D hologram fan designed for commercial display applications including retail environments, trade show exhibits, and public-facing signage installations. It features a four-blade aluminum alloy construction with a resolution of up to 3840x960, operating at 800 RPM with a 170° adjustable viewing angle. Content is managed via TF card, app, cloud, or web upload, with support for MP4, AVI, RMVB, and JPG formats.

The unit draws less than 60W from AC 100–240V 50/60Hz input and delivers brightness up to 2500 nit, adjustable through the app. Rated for over 20,000 hours of operation, it supports 24/7 continuous use within an operating temperature range of 0°C to 70°C. Bluetooth audio output, WiFi (802.11b/g/n), and multi-unit splicing capability are included. Gross weight is 1.8 kg.

The HD-F65-WF carries FCC and RoHS certifications. The manufacturer also references CE, ISO 9001, and ISO 14001 compliance in product documentation; buyers should request current certificates for specification purposes. A one-year warranty applies. A waterproof enclosure option is available separately.
