

12V Power Distribution Box, 1 - Inlet to 8 - Outlet, Individually Fused

- Distributes power from a single 12V inlet to eight fused outlets
- Individual fuse per outlet for circuit-level overcurrent protection
- Rated for automotive, marine, and industrial operating environments
- Backed by a 1-year warranty

OVERVIEW

The K-PW-Box is a 12V power distribution box that routes power from a single inlet to eight individually fused outlets within one enclosure. It is suited for automotive, marine, and industrial applications requiring centralized power distribution.

Each outlet carries its own fuse for circuit-level overcurrent protection, and the unit is built for durability across demanding operating environments. It is backed by a 1-year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime	50,000 h
--------------	----------

ELECTRICAL

Operating Voltage	12 V
