

Clear Acrylic Slim LED Light Box, 37 in x 28 in, 100-240VAC

- Clear acrylic construction for maximum graphic visibility
- Slim 0.4 in depth profile for low-clearance wall mounting
- 37 in x 28 in display face dimensions
- Wide 100-240VAC operating voltage range for flexible installation
- LED system rated for 50,000 hours of operation
- 1-year manufacturer warranty

OVERVIEW

The LBSC3728L is a slim-profile LED light box constructed with clear acrylic, designed for backlit advertising graphics and display applications. At 37 in wide by 28 in tall with a 0.4 in depth, it is suited for retail, corporate, and commercial environments where a low-profile illuminated display is required.

The integrated LED system operates on a 100-240VAC input, supporting use across a range of electrical installations, and is rated for 50,000 hours of LED life. The clear acrylic construction is intended to maximize light transmission and graphic clarity across the display face.

This product carries a 1-year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime 50,000 h
