

Pico Remote for Caseta Smart Home Switch, 2-Button, White

- 2-button wireless control layout for on/off and dimming
- White finish for a low-profile appearance on any wall
- No wiring or programming required for installation
- Battery-operated design eliminates line-voltage connections
- Compatible Caseta switch platform rated for 50,000-hour LED lifetime
- Backed by a 1-year manufacturer warranty

OVERVIEW

The Lutron PJ2-2B-GWH-L01 is a 2-button Pico wireless remote designed for use with Lutron Caseta Smart Home switches. It provides control over lights and shades without requiring any wiring or programming, making it suitable for retrofit and new-construction applications where a low-profile, battery-operated control point is needed.

The remote features a compact, lightweight form factor in a white finish and communicates wirelessly with compatible Caseta devices. It operates on a long-life battery and offers straightforward on/off and dimming functions, with support for scene and schedule configuration through the Caseta system.

The associated Caseta switch platform carries a rated LED lifetime of 50,000 hours, and the remote is backed by a 1-year warranty.
