

## 90-Degree Corner Connector for M-H-57 and M-H-28 Flex Strip

- Provides a 90-degree angle transition for flex strip runs
- Compatible with M-H-57 and M-H-28 flex strip systems
- Constructed from durable materials for reliable installation
- Backed by a 1-year warranty
- Pairs with strip rated for 50,000-hour LED lifetime

### OVERVIEW

The M-H-CN corner connector is designed for use with M-H-57 and M-H-28 flex strip systems, enabling precise directional transitions in linear lighting installations. It is suited for applications where strips must navigate corners or tight spaces while maintaining a continuous, professional appearance.

Constructed from durable materials, the connector installs easily and provides a clean, polished transition around corners without compromising the integrity of the flex strip run.

Backed by a 1-year warranty, with compatible strip components rated for 50,000 hours of LED lifetime.

### SPECIFICATIONS

#### OPTICAL

LED Lifetime 50,000 h

#### ORDERING

Warranty 1 y

### APPLICATIONS

- Corner transitions in linear lighting runs
- Tight-space lighting installations
- Continuous perimeter lighting around cabinetry or architectural features
- Signage and display lighting requiring directional turns
