

Both-End Connector with 4-Inch Cable for M-H-57 and M-H-28 Flex Strip

- Both-end connector with 4-inch cable for flexible positioning
- Compatible with M-H-57 and M-H-28 flex strip systems
- Rated for 50,000 hour LED lifetime when paired with compatible strips
- Backed by a 1-year warranty
- Delivers correct polarity for consistent power transfer

OVERVIEW

The M-H-CNT-4 is a both-end connector with a 4-inch cable designed for use with M-H-57 and M-H-28 flex strip systems. It is intended to join flex strips to power sources or adjacent strip runs, providing a secure and professional termination in commercial and architectural lighting installations.

The 4-inch cable length allows for positioning flexibility during installation while maintaining a reliable electrical connection. The connector is designed to deliver correct polarity and consistent power transfer to the flex strip, supporting clean, finished results in a range of lighting applications.

SPECIFICATIONS

OPTICAL

LED Lifetime 50,000 h

ELECTRICAL

Wire Length 4 in

ORDERING

Warranty 1 y

APPLICATIONS

- Commercial architectural lighting installations
- Joining flex strip runs to power sources
- Connecting adjacent flex strip segments
- Outdoor and indoor linear lighting projects
