

Both-End Connector for M-H-57 and M-H-28 Flex LED Strip

- Compatible with M-H-57 and M-H-28 flex LED strip
- Both-end design for power input or strip-to-strip connection
- Rated for use with strips having a 50,000 h LED lifetime
- Backed by a 1 year warranty
- Straightforward tool-free installation for clean line runs

OVERVIEW

The M-H-CNT is a both-end connector designed for use with M-H-57 and M-H-28 flex strip lighting. It connects the end of a flex strip to a power source or to an additional strip segment, making it a practical component for extending or terminating runs in commercial and residential lighting installations.

The connector is designed for straightforward installation and delivers a clean, professional finish to completed runs. It is compatible with LED strips rated for a 50,000 hour lifetime and is backed by a 1 year warranty.
