

Power Cord for M-H-57 and M-H-28
Flex Strip Lights, NA Plug

- Direct-fit connector compatible with M-H-57 and M-H-28 flex strips
- Standard North American plug end for straightforward power connection
- Suited for difficult-to-access installation locations
- Backed by a 1-year warranty
- Pairs with strips rated for 50,000-hour LED lifetime

OVERVIEW

The M-H-CORD is a power cord designed for use with M-H-57 and M-H-28 flex strip lights. It features a standard North American plug on one end and a compatible connector on the other, making it a direct-fit accessory for both strip models. The cord is suited for installations where the power source is difficult to reach, providing a flexible connection solution for commercial and architectural lighting applications.

Constructed from high-quality materials, the cord is built for durability and extended service life in demanding installation environments, backed by a 1-year warranty.
