

Pin Connector for M-H Flex Strip,
50,000 h LED Lifetime, 1 - Year
Warranty

- Dedicated connector for M-H series flexible LED strip systems
- Supports 50,000-hour rated LED lifetime of connected strip systems
- Compact, flexible form factor for easy integration into strip routing
- Provides stable electrical conductivity for power and data transfer
- Backed by a 1-year manufacturer warranty

OVERVIEW

The Pin Connector for M-H Flex Strip is a dedicated interconnect component designed for use with M-H series flexible LED strip systems. It provides secure, reliable electrical connections between strip segments or between a strip and a power source, supporting straightforward integration into a range of commercial and architectural lighting installations.

The connector is engineered for stable electrical conductivity and efficient power and data transfer. Its compact form factor accommodates flexible strip routing, and the design is intended to withstand wear in demanding installation environments.

The connector is backed by a 1-year warranty and is rated for use with M-H strip systems carrying a 50,000-hour LED lifetime rating.
