

Both-End Middle Connector, 12mm —
For M-HL-57-120 LED Strip
(White/Warm White)

- Fits 12mm profile of M-HL-57-120-W/WW LED strip series
- Joins two strip segments at a mid-run junction point
- Maintains stable mechanical bond for reliable installations
- Supports efficient power distribution across connected sections
- Backed by 1-year warranty
- Compatible with strips rated for 50,000-hour LED lifetime

OVERVIEW

The M-HL-57-CNT is a both-end middle connector designed specifically for use with M-HL-57-120-W/WW LED strip lights. It provides a secure, reliable connection point between two strip segments, supporting clean and professional installations where a mid-run junction is required.

Constructed to fit the 12mm profile of the M-HL-57-120 series, this connector facilitates efficient power distribution across connected strip sections while maintaining a stable mechanical bond. Its design simplifies installation and allows flexibility in configuring lighting layouts across a range of commercial and architectural applications.

The M-HL-57-120-W/WW strip it is designed for carries a 50,000-hour LED lifetime rating, and the connector is backed by a 1-year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime 50,000 h

MECHANICAL

Strip Width 12 mm
0.47 in

ORDERING

Warranty 1 y

APPLICATIONS

- Commercial architectural lighting runs
- Mid-run LED strip junctions
- Continuous cove and channel lighting installations
- Signage and display lighting layouts
