

90-Degree Corner Connector for LED Light Roll, 1-Year Warranty

- Provides 90-degree corner transitions for LED light roll runs
- Maintains uninterrupted power delivery without cutting the roll
- Constructed from durable materials for stable mechanical support
- Low-profile design for discreet integration into finished installs
- Backed by a 1-year warranty
- Compatible with light rolls rated for 50,000-hour LED lifetime

OVERVIEW

The M-HL-CON-90 is a 90-degree corner connector designed for use with LED light rolls, enabling clean and continuous installations at right-angle transitions. It is suited for applications where maintaining uninterrupted power delivery through corners is required without cutting or splicing the light roll itself.

Constructed from durable materials, the connector is designed to provide stable mechanical support and a consistent electrical connection at the joint. Its low-profile form is intended to integrate discreetly into the installation without disrupting the finished appearance.

The connector is backed by a 1-year warranty and is intended for use with light rolls rated for 50,000 hours of LED lifetime.
