

10mm RGB Pin Connector for LED Strip Lighting, 50,000-Hour LED Life

- 10mm pin size fits standard RGB LED strip connections
- Rated for 50,000-hour LED lifetime
- Compact pin-style design for space-constrained installs
- Backed by a 1-year warranty
- Compatible with a range of RGB lighting equipment

OVERVIEW

The M-HR-Z-10mm-RGB-Pin is a 10mm RGB pin connector designed for integration into RGB LED lighting systems. It provides a compact, reliable termination point for connecting RGB lighting components within commercial and industrial installations.

The connector is rated for an LED lifetime of 50,000 hours and is designed for straightforward installation, supporting consistent connectivity and durable long-term performance in LED applications.

The connector is backed by a 1-year warranty.
