

2-Pin Connector for 8mm Rope Light, 3014 Series

- Compact 2-pin configuration for 8mm rope light connections
- Compatible with 3014 series rope light products
- Secure pin design for consistent electrical conductivity
- Suitable for both indoor and outdoor lighting applications
- Constructed from high-quality materials for extended-use durability

OVERVIEW

The M-HR-Z-Pin-8mm is a 2-pin connector designed for use with 8mm rope light in the 3014 series. Its compact two-pin configuration supports straightforward installation and maintenance across a range of lighting applications, both indoor and outdoor.

The connector features a secure pin design and snug fit intended to maintain consistent electrical conductivity at the rope light-to-power-source junction. It is constructed from high-quality materials for durability in extended-use installations.
