

T-Connector 4-Pin L-Corner for RGB AC 120V LED Strip

- 4-pin configuration for RGB AC 120V strip circuits
- L-corner design enables right-angle direction changes
- Tool-free connection eliminates cutting or soldering
- Compatible with RGB high-voltage rope light systems

OVERVIEW

The M-HRN-Z-10mm-RGB-T-CNT is a 4-pin T-connector for use with RGB AC 120V LED strip systems. It provides an L-corner junction point, allowing installers to branch or redirect RGB strip runs at a right angle without cutting or soldering. Intended for commercial and architectural lighting installations where clean, reliable connections are required at directional transitions between strip runs.

SPECIFICATIONS

ELECTRICAL

Operating Voltage	120 V
Input Connection Type	4-Pin T-Connector, L-Corner

APPLICATIONS

- Architectural cove lighting corners
- Perimeter signage strip runs
- Commercial building facade lighting
- Retail display lighting transitions
