

2-Pin 7mm Connection Cable for LED Rope Light Systems

- 2-pin cable design for LED rope light connections
- 7mm cable diameter matches M-H/HL/N series rope profile
- Compatible with LEDs rated for 50,000-hour lifetime
- Backed by a 1-year warranty

OVERVIEW

The M-HZ-CA-8mm is a 2-pin 7mm connection cable used as an accessory within M-H/HL/N series high voltage LED rope lighting systems. It provides a wiring interface for linking rope light segments, drivers, or related components in commercial and industrial installations.

The cable is rated for use with LED components carrying a 50,000-hour lifetime rating, supporting long-term system reliability. It is backed by a 1-year warranty.
