

8mm End Cap for 10mm Pin Rope Lights, Rope Light Accessory

- Sized for 8mm end cap fit on 10mm pin rope lights
- Seals rope light run end against dust and moisture ingress
- Rated for compatibility with 50,000 h LED lifetime rope systems
- Backed by 1 year warranty
- Provides a finished, clean termination point for installations

OVERVIEW

The M-HZ-Cap-8mm is an 8mm end cap designed for use with 10mm pin rope lights. It provides a finished termination point at the end of a rope light run, protecting the internal components from dust and moisture ingress and giving installations a clean, professional appearance.

This accessory is intended for use with rope light systems rated for a 50,000 hour LED lifetime, supporting long-term termination durability across the life of the run. It is backed by a 1 year warranty.
