

12mm 3-Pin Connector for WW+W Dual-White Rope Light

- 12mm connector width matches WW+W dual-white rope light profile
- 3-pin configuration supports dual-white (warm white + white) circuits
- Rated for use with rope light rated at 50,000-hour LED lifetime
- Backed by a 1-year warranty

OVERVIEW

The M-HZ-Pin-6-6mm is a 12mm 3-pin connector designed for use with WW+W (warm white plus white) dual-white rope light systems. It provides the electrical connection point required to terminate or join dual-white rope light runs, supporting installations where tunable white or dual-channel lighting control is needed.

The connector is rated for a 1-year warranty and is intended for use with rope light rated at a 50,000-hour LED lifetime, aligning connector durability with the expected service life of the connected rope light.

SPECIFICATIONS

OPTICAL

LED Lifetime 50,000 h

ORDERING

Warranty 1 y

APPLICATIONS

- Joining dual-white rope light runs
- Terminating WW+W rope light sections
- Tunable white lighting installations
- Outdoor rope light electrical connections
