

# L-Shape RGB Connector for M-N10mm Neon Rope Light, 1-Year Warranty

- L-shape design for directional transitions in rope light runs
- Compatible with M-N10mm Neon Rope Light systems
- Rated for 50,000 hour LED lifetime
- Backed by a 1-year warranty
- Suitable for indoor and outdoor installations

OVERVIEW

The M-N10-Cnt-L is an L-shape RGB connector designed specifically for use with M-N10mm Neon Rope Light. It enables directional turns and continuity of color and lighting effect control across connected rope light runs, suitable for both indoor and outdoor installations.

Construction is durable and rated for extended service, matching the 50,000 hour LED lifetime rating of the compatible neon rope light system. It is backed by a 1-year warranty.
