- Compatible with M-N10mm-RGB 110V oval neon rope light
- Ergonomic oval form factor for comfortable handling
- Supports multiple color and mode selection options
- Rated for use with 50,000-hour LED lifetime fixtures
- Backed by a 1-year warranty

OVERVIEW

The M-N10-RGB-Ctl.2 is an RF remote controller designed specifically for use with the M-N10mm-RGB 110V oval neon rope light. It provides wireless control of colors and lighting modes from a distance, making it suitable for both indoor and outdoor installations where convenient operation is required.

The controller uses RF (radio frequency) technology for signal transmission and features an ergonomic form factor intended for ease of handling and navigation. Multiple color and mode selections are supported, allowing operators to adjust lighting output and transition effects without direct access to the fixture. Compatible with neon rope light rated for 50,000 hours of LED lifetime.

The controller carries a 1-year warranty.
