

Silicone LED Neon Rope Light, 10x20mm, Lemon Yellow, 12VDC, 8.5W/m, IP67

OVERVIEW

The LUMIPRO M-N10 Series is a silicone LED neon rope light in a 10x20mm profile, designed for architectural accents, signage, channel letter backlighting, and decorative installations in both indoor and outdoor environments. It operates on 12VDC and is available in a 20-meter roll format.

The rope light uses SMD2835 emitters at 120 chips per meter, producing lemon yellow light. Rated at IP67, it is suitable for applications exposed to dust and moisture. The 120-degree beam angle provides broad lateral coverage, and the silicone construction supports side-bending flexibility for curved installations.

This product carries RoHS compliance. A 1-year warranty is included. CE certification is referenced in product documentation but is not confirmed in the verified source datasheet and should be independently validated prior to specification.

SPECIFICATIONS

Power	9 W/m	Beam angle	120 deg
Luminous flux	450 lm/m	Operating temp	-40 to 60 °C
IP rating	IP67	Dimensions	10 x 20 mm cross-section, 20 m roll
Input voltage	12 V
