

End Cap for M-N11 Flexible Neon, 1-Year Warranty

- Provides a secure termination point for M-N11 Flexible Neon tube ends
- Constructed from durable materials to resist physical damage
- Designed to integrate seamlessly with M-N11 Flex neon lights
- Backed by a 1-year warranty
- Compatible with neon runs rated for 50,000-hour LED lifetime

OVERVIEW

The M-N11-Cap is an end cap accessory designed for use with M-N11 Flexible Neon tubing. It provides a secure, finished termination point for the neon tube ends, contributing to a clean, professional installation appearance.

Constructed from durable materials, the end cap protects exposed tube ends from physical damage and helps maintain the integrity of the neon run. It is designed to integrate seamlessly with M-N11 Flex neon lights while accommodating the flexible shaping characteristics of the system.

The M-N11-Cap is backed by a 1-year warranty, consistent with the M-N11 Flex neon system's 50,000-hour LED lifetime.
