

Two-End Connector for M-N11 Flexible LED Neon, Indoor/Outdoor Termination Accessory

- Terminates both ends of an M-N11 Flexible LED Neon run
- Supports indoor and outdoor installation conditions
- Compatible with M-N11 Flexible LED Neon rated for 50,000 h LED lifetime
- Backed by a 1-year manufacturer warranty
- Designed for secure, effortless connectivity during installation

OVERVIEW

The Two-End Connector is a termination accessory designed specifically for the M-N11 Flexible LED Neon system. It provides secure, reliable connectivity at both ends of a neon flex run, supporting clean installation for indoor and outdoor lighting applications.

The connector is engineered to maintain optimal performance and durability within the M-N11 system, offering protection against environmental factors to suit a range of installation conditions.

Backed by a 1-year warranty, compatible with M-N11 Flexible LED Neon rated for 50,000 hours of LED life.
