

Full-Color Chasing Neon Rope Light, 24V DC, 11.5W/m, IP67, 25m Roll

OVERVIEW

The M-N12-24V-Chase is a full-color chasing neon rope light designed for commercial and architectural lighting applications requiring dynamic RGB effects. Built on SMD5050 technology with IC2811-compatible control (IC 943S), it supports seamless color transitions and chasing sequences across a 25-meter roll. Suitable for both indoor and outdoor installations.

Operating at 24V DC, the fixture draws 11.5W per meter and delivers 388 lumens per meter at a 120-degree beam angle. The side-bending profile with a 10cm cutting unit allows flexible routing around curves and contours. Rated for operation from -40°C to 60°C (-40°F to 140°F), the light is built for year-round use in demanding environments.

This product carries an IP67 weatherproof rating and is RoHS compliant. It is backed by a 3-year manufacturer warranty.

SPECIFICATIONS

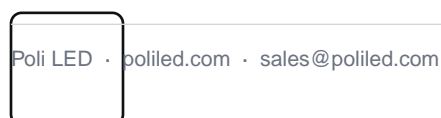

Power	11.5 W/m	Beam angle	120 deg
Luminous flux	388 lm/m	Operating temp	-40 to 60 °C
IP rating	IP67	Warranty	3 years
Input voltage	24 V	CRI	80
