

8 ft Channel Track for M-N15 Flexible Neon LED Strip Mounting

OVERVIEW

The M-N15-Ch-8 is a fixing channel designed specifically for use with M-N15 (U150) flexible neon LED strip. Measuring 2.5 meters (approximately 8 ft) in length, it provides a secure mounting solution for M-N15 flex neon runs in commercial and industrial installations. The channel supports consistent alignment and structural stability along the full length of the neon strip.

The channel is a passive mounting accessory and carries no electrical ratings of its own. It is intended to work in conjunction with the M-N15 flexible neon system, maintaining proper positioning and protecting the neon profile during long-term use. No independent power, output, or environmental ratings are specified in available product data.

No certifications, compliance listings, or warranty terms are confirmed in the available source data for this accessory. Contractors and specifiers should verify compatibility requirements and applicable installation codes with the full M-N15 system documentation prior to procurement.
