

8-Inch Two-End Connector for M-N15 Flexible LED Neon, 1-Year Warranty

- 8-inch length for joining or extending M-N15 neon runs
- Two-end connector design for inline splicing applications
- Compatible with M-N15 flexible LED neon rated at 50,000-hour LED lifetime
- Backed by a 1-year warranty
- Secure electrical and mechanical connection point

OVERVIEW

The M-N15-Cnt-8 is an 8-inch two-end connector designed for use with M-N15 flexible LED neon systems. It is intended for joining or extending runs of M-N15 flex neon in commercial and architectural lighting installations.

Constructed for reliable electrical and mechanical connection, the connector integrates into the M-N15 system without exposed cable clutter, supporting a clean finished appearance in professional installations.

Backed by a 1-year warranty and compatible with M-N15 neon rated for a 50,000-hour LED lifetime.
