

Waterproof No - Gap Straight Connector for M-N15 LED Neon Flex

- Waterproof, no-gap design for the M-N15 LED neon flex series
- Advanced sealing technology provides a watertight connection point
- Eliminates gaps and weak points at the strip-to-strip junction
- Compact form factor simplifies installation in tight spaces
- Backed by a 1-year warranty
- Compatible with LED strip rated for 50,000-hour LED lifetime

OVERVIEW

The M-N15-Cnt-WP is a waterproof, no-gap straight connector designed for use with the M-N15 LED neon flex series. It is intended for applications where reliable electrical continuity and moisture protection are required, including outdoor lighting, irrigation systems, and marine electronics.

The connector features advanced sealing technology that provides a watertight seal, protecting electrical connections from moisture, dust, and other environmental contaminants. Its construction is designed to eliminate gaps and weak points at the connection point, supporting consistent performance in harsh or exposed environments. The compact form factor is intended to simplify installation in space-constrained applications.

Backed by a 1-year warranty, and rated for use with LED strip having a 50,000-hour LED lifetime.
