

Two-End Connector for M-N15 Flexible LED Neon, Indoor/Outdoor Use, 1-Year Warranty

- Secures both ends of M-N15 flexible LED neon tubing
- Installs without specialized tools for faster assembly
- Withstands extreme weather for indoor and outdoor applications
- Compatible with M-N15 neon flex rated for 50,000-hour LED lifetime
- Backed by a 1-year warranty

OVERVIEW

The Two-End Connector for M-N15 Flexible LED Neon is a dedicated accessory designed to securely join both ends of M-N15 flex neon tubing. It is suited for a range of professional lighting installations, both indoor and outdoor, where a reliable mechanical and electrical connection between neon segments is required.

The connector is constructed to withstand extreme weather conditions, supporting use across varied environments. Installation does not require specialized tools, and the design is intended to minimize the risk of electrical hazards during assembly and operation.

Backed by a 1-year warranty, this accessory is compatible with M-N15 neon flex rated for 50,000-hour LED lifetime.
