

RGB LED Neon Flex Pin Connector, 15-Pin Configuration, M-N15 Series

- 15 labeled RGB pins for straightforward controller connection
- Supports vibrant, customizable multi-color output
- Design features intended to manage heat during operation
- Compatible with a range of RGB neon flex control systems
- Rated for 50,000-hour LED lifetime on connected runs
- Backed by a 1-year warranty

OVERVIEW

The M-N15 RGB Series pin connector is designed for use with 15cm Neon Flex RGB lighting, providing a 15-pin interface for multi-color signal and power connections. The labeled pin layout supports straightforward installation and integration with compatible RGB controllers and systems.

The connector incorporates design features intended to manage heat and support reliable operation over extended use, with a rated LED lifetime of 50,000 hours for connected neon flex runs.

The product is backed by a 1-year warranty.
