

End Caps for LED Neon Channel, Replacement Set of 2

- Sold as a set of 2 end caps per unit
- Designed to fit compatible LED strip and neon channels
- Closes open channel ends for a finished appearance
- Helps protect internal components from dust and contact

OVERVIEW

End caps designed for LED strip and neon channel systems, sold as a replacement set of two units. These caps close off the open ends of compatible channels, providing a finished appearance at termination points.

Installation helps protect internal channel components from dust intrusion and incidental contact at the exposed ends of the run.

APPLICATIONS

- LED channel terminations
- Wood panel neon strip installations
- Architectural linear lighting runs
- Commercial display lighting endpoints
