

6×12mm Silicone End Cap, Blue —
Pack of 2000

- Silicone construction resists moisture and dust intrusion
- Fits 6×12mm tubing or conduit ends
- Packaged in bulk bags of 2000 pieces
- Blue color for visual identification or coding
- Installs without specialized tools

OVERVIEW

The M-N6-Cap-B is a 6×12mm silicone end cap designed to seal and protect open ends of tubing, conduit, or similar components across a range of commercial and industrial applications. Each cap provides a barrier against dust, moisture, and contaminants, helping to maintain insulation integrity and extend the service life of the protected assembly. Suitable for use in electronics, plumbing, automotive, and HVAC environments.

Constructed from durable silicone material, these end caps are designed for straightforward installation without specialized tools, making them practical for both field technicians and in-shop assembly work. This SKU is packaged in bags of 2000 pieces, supporting high-volume production or maintenance operations.
